Home: 38/6 Saliya Mawatha, Anuradhapura, 50000 Anuradhapura (Sri Lanka)

ABOUT ME

Motivated Full Stack Software Engineer with experience in web development, DevOps practices, and cloud technologies. Skilled in building responsive applications, developing REST APIs, and working with tools such as Docker, CI/CD, AWS, and Azure. Passionate about learning new technologies and creating reliable, scalable, and user-friendly software solutions.

SKILLS

Languages

Node JS / PHP / Java / SQL / Go / JavaScript

Tools

GitHub Actions / PostgreSQL / MySQL / CI/CD / Docker / Terraform / Postman / Git

Cloud Technologies

Azure / AWS

Operating Systems

Windows / Linux

CERTIFICATIONS

[KodeKloud, 02/2026]

KodeKloud Engineer - 100 Days of Cloud (AWS) Completed practical cloud engineering exercises using AWS services including EC2, S3, IAM, networking, monitoring, and cloud deployment concepts. Improved understanding of cloud infrastructure management and DevOps practices in AWS environments.Write here the description...

Mode of learning: Research-Lab based

Link: https://engineer.kodekloud.com/certificate-verification/b275e955-592b-4b0a-a1bc-c798f6ee8214

[kodeKloud, 02/2026]

KodeKloud Engineer - 100 Days of Cloud (Azure) Completed hands-on cloud engineering tasks focused on Microsoft Azure services, cloud infrastructure, virtual machines, networking, storage, monitoring, and deployment practices. Gained practical experience in managing cloud-based environments and implementing DevOps workflows on Azure.

Mode of learning: Research-Lab based

Link: https://engineer.kodekloud.com/certificate-verification/7e481b78-46e8-4190-bbe8-5ca51ef2b5ee

[CoDeKu DevOps Academy]

Docker for Absolute Beginners with Hands on Projects Learned Docker fundamentals including containerization, Docker images, containers, volumes, networking, and Docker Compose through practical projects. Developed skills in building, running, and managing containerized applications for modern software deployment.

Mode of learning: Research-Lab based

[Postman, 11/2024]

Postman API Fundamentals Student Expert | Postman Developed knowledge of API testing, API requests, collections, authentication methods, and RESTful services using Postman. Gained experience in testing, debugging, and documenting APIs for efficient software development workflows.

Mode of learning: Online

Link: https://api.badgr.io/public/assertions/7-LSS-WIQLu407DPpTNh2w

[The Linux Foundation, 09/2025]
LFS101: Introduction to Linux Developed foundational Linux skills including command-line operations, file system management, user permissions, process management, shell scripting basics, and system administration concepts. Gained practical experience working in Linux environments commonly used in software development and DevOps workflows.

Mode of learning: Online

[KodeKloud, 07/2026]
KodeKloud Engineer - Terraform (Level 1)

Mode of learning: Research-Lab based

Link: https://engineer.kodekloud.com/certificate-verification/a11b9d7b-b7bf-41ae-bc97-e2103969ff65

[KodeKloud, 08/2026]
KodeKloud Engineer - Terraform (Level 2)

Mode of learning: Research-Lab based

Link: https://engineer.kodekloud.com/certificate-verification/58ffce75-77f2-4f9b-a29a-6bb95b6d045e

[Amazon Web Services, 09/2026]
Introduction to Amazon EC2 Auto Scaling

Mode of learning: Research-Lab based

PROJECTS

[02/2026]
My Portfolio Personal Portfolio built with Next.js 14, Tailwind CSS, and Framer Motion. Features a clean, responsive design, smooth animations, and optimized performance. Hosted on Vercel.
Technologies: Next JS, Tailwind CSS, Framer Motion

Link: www.ayomalbanneka.me

Bookly Bookly is an online bookstore e-commerce web app: browse the catalog, add to cart, checkout with payments, and manage orders and inventory.
Technologies: Java, REST API, Servlets, Hibernate ORM, Maven, MySQL, JavaScript

Link: https://github.com/ayomalbanneka/Bookly

[09/2024 – 03/2025]
UrbanElegance E-Commerce Web Application A full-featured PHP e-commerce platform with an admin panel, shopping cart, watchlist, invoice generation, and OAuth integration (Google/Facebook). Built with PHP 8.x, MySQL, and Bootstrap.
Technologies: PHP, JavaScript, HTML, CSS, Git, Continuous Integration, MySQL

Link: https://github.com/ayomalbanneka/e-commerce-web-application

Simple Node.js App Host on Azure App Service A simple Node.js HTTP server with no external dependencies, built for CI/CD demonstration on Azure.
Technologies: Node JS, Azure, CI/CD, GitHub Actions

Link: https://github.com/ayomalbanneka/azure-ci-cd
